URGES RENAMING SOLDIERS' FIELD

Calls Fight, Rodeo Too Commercial.

Believing that the conduct of such "commercialized" events as the ro-deo, the Dempsey-Tunney fight, and football games in Soldiers' field is a football games in Soldiers' field is a shameless insult to the war dead, the Forges post No. 196 of the American Legion yesterday adopted a resolution asking the south park board to change the name of the stadium and to erect a "suitable" monument to the soldiers' memory. A committee also was appointed to present these request to the park commissioners.

Gives Reason for Request. Commander E. V. Dickson of the Legion post explained that the men are not opposed to the holding of such affairs in the stadium, but that they consider the initial step of naming the field a serious mistake that should

be rectified.

Inasmuch, Mr. Dickson said, as the stadium was dedicated as "hallowed and sacred ground, it is inappropriate that it should be used for such a highly commercialized enterprise as the Dempsey-Tunney fight under the name of Soldiers' field." Cites Plan for Monument.

It has been planned to complete the stadium. Mr. Dickson said, by erecting a soldiers' monument at the north end of the field under the open arc. "Our post," he said. "recommends that that monument be constructed at some other point along the lake from where number restricts.

Detroit, Mich., Aug. 11.—[Special.]—

The air today claimed Henry Ford for its was agreeable to the colonel, his initial ride in a plane—but it took the reassuring piloting of Col. Charies A. Lindbergh to bring it about. The plane used was the other half of "We"—the Spirit of St. Louis.

In the evening he is to be guest at a indbergh dinner in the Stevenson tel spensored by the Association of commerce. DAY ON MARKET

Learney of Texas and in recent years well known in Wall street, admitted he was the largest individual holder of Manhattan Electrical Supply and issued a closed with a net loss of 13% points of its recent gains, while Timken Roller Bearing dropped 6% net for the day. Even such sturdy, active stocks as General Motors, Du Pont, United States Steel, Allied Chamical, and General Electric were influenced comewhat by the distress selling of these shares.

This is not the first time a break has taken place in Mashattan Electric, a comparatively small company which pays \$5 dividends on its shares and is engaged in the manufacture of radio and electrical apparatus. Last October in one week it ran up from approximately pool operating on the New York stock exchange in the shares of radio and electrical apparatus. Last October in one week it ran up from approximately \$50, a share to \$75 and then the policy of the shares and American tourists wear straw hat.

pany, under the management of George A. Carden, a former member of the exchange, smashed within five trading hours today and the stock dropped from a high of 121 to a low of 58% for a net loss on the day of 50% points. This was the greatest decline which had taken place on the decline which had taken place big exchange in any security in recent years. It lopped off \$8,000,000 in the open market value of the company's

securities.

The shares of the Chicago Nipple company on the New York curb market, which also have been boosted to extraordinarily high levels by the same interests that have been identified with Manhattan Electrical Supply, collapsed simultaneously, the A shares dropping from 47% to 9 and showing a net loss of 38 points at the end of the day. The B shares broke from 34% to 5 and closed with a net loss of 27%.

Tumble is Dramatic.

The collapse of the pools in these issues has had similar precedents in the markets of the last two or three years. Last year the shares of Devoe & Raynolds and of the Foundation company crashed downward when the pools operating in them found them selves unable to take more stock. To day's break was even more dramatic. Last week the Manhattan Electrical stock touched a high of 132. Today the opening price was 120%, after which it advanced to 121 and remained in a comparative narrow area for the first hour or so. Then it started downward under particularly heavy presward under particularly heavy pres-sure, which by 11:30 o'clock had become a complete rout. Falling in 1, 2, 3, 4, and 5 point jumps, the stock was dumped upon the market for any price

Some ineffectual attempts were made to check the decline. Mr. Carden was said to have purchased 25,000 shares of additional stock during the day, but this had little effect and the collapse was almost a perpendicular one, carrying the stock down to 58% just before the close. The last price was 58%.
There are only 130,000 shares of
stock outstanding and in today's trading a total of 108,400 were turned over.

Cedar Run. Our infantry was in two divisions, Gen. Williams on the right and Gen. Augur on the left of Williams. The rebel infantry was entirely concealed by woods behind the artillery, placed in a large number of excellent positions. Our artillery excelled theirs in the number and value of the guns, but Capt, Best, chief of artillery, experienced difficulty in fining them suitable positions.

SACCO-VANZETTL

[The Milwaukes Journal.]

The decision of Gov. Fuller in the Sacco-Vanzetti

Case will be generally accepted. From the first hour when responsibility fell upon the governor he gave evidence of realizing its importance. In each step since he has shown evidence of trying to be impartial. He went surther, appointing three able and nationally known men to sift the case, each independent of the vorded to their former position. They drove the enemy out, but received as much oil as the world produced in 1917, ast year the United States produced about 70 check on his own opinion. It is significant that all officers were falling all about them. They drove the enemy out, but received to their former position. There were 2,000 in the brigade, and next morning but 500 could be gathered to gether for duty.

I do not ask you, Sylvia, to give
Shedow of love in answer to my gold;
I offer memories sweet and fugitive,
Dreams for an extrume dusk when you are old.
Think, dear, the day will go out with a herd
Of amber cattle, under a fade sky,
The boy who drives them piping one clear word,
"Love!" "Love!" and "Love!" until all colors die
And night comes back with stately step as ever,
Down from far fields and pastures of rich gloom
Setting dim stars to turn above the river
Marking with shadow-tapestries a room
Between the hedge-row and the wheat in blade,
Where we may deeply sleep in the deep shade.

> At the Fairfield Country Club Hugh Beaumont explains to Miss Ethel Burnside how he came to prefer Lucky Strikes.

You, too, will find that Lucky Strikes are mild and mellow-the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process-"It's toasted"-no harshness, not a bit of bite.

It's toasted

writes:

"Among other things, when young actors come to me for advice, I always say, Take care of your voice, cultivate it— and watch your smoking. Usually they eye the cigarette in my hand with some suspicion. And then, I offer them a Lucky Strike-a cigarette I smoke freely, and have yet to feel the slightest effect on my throat. I've been told that toasting does that for this cigarette. When I smoke 'Luckies' my throat is beautifully clear and unirritated,"

It costs more to build a Knight engine

Millions of dollars are invested to build the famous Palcon-Knight sleeve-valve engine known as "America's Finest Type of motor."

It costs more to build this six-cylinder engine, but every owner is assured of a quality of quick, smooth, quiet power that remains constant through years of use.

It is worth more to own a motor that is free from valve and carbon trouble and mechanical annoyance.

There is satisfaction in driving a car that surpasses ordinary six-cylinder cars in performance, just as the ordinary six surpasses the four. See the Falcon-Knight Six and drive it today. FALCON MOTORS CORPORATION, DETROIT, MICH.

OMAHA AND COUNCIL BLUFFS STREET RAILWAY COMPANY **BONDHOLDERS' COMMITTEE**

The undersigned at the request of the holders of a large amount of the FIRST CONSOLIDATED MORTGAGE 5% GOLD BONDS OF THE OMAHA AND COUNCIL BLUFFS STREET RAILWAY COMPANY, DUE JANUARY 1, 1928, have consented to act as a Committee with a view of protecting the interests of such bondholders.

Under present conditions, and pending the obtaining of a new franchise upon satisfactory terms from the City of Omaha, the Company is unable to pay or refinance its bonds at their maturity, January 1, 1928.

For these reasons, the Committee has approved a plan for the extension of the maturity of the Company's bonds for a period of three years from January 1, 1928, and the Company has agreed, in consideration of such extension, to increase the rate of interest payable upon such bonds to Six Per Cent per annum during such extended period.

A Deposit Agreement has been prepared which may be obtained from the Depositories or the Secretary of the

Signal Mountain Portland Cement Company

Chattanooga, Tennessee

Five-Year 6% Sinking Fund Gold Notes

Due August 1, 1932 Harris Trust and Savings Bank, Chicago, Trustee

The following information is summarised from a letter of Mr. John L. Senior, President of the Company:

S IGNAL Mountain Portland Cement Company is engaged in the manufacture and distribution of Portland Cement under the trade name "Signal Mountain" and is one of the largest companies engaged in this business in the South. Its plants, which have a manufacturing capacity of 1,500,000 barrels of cement per annum, are located five miles from Chattanooga and are well situated with respect to a large trade area which the

The properties of the company comprise a complete manufacturing unit and about 450 acres of land which contain supplies of clay and stone suf-

ficient for operations at the present capacity for over 70 years. The plant

was designed and constructed by the Cowham Engineering Company, which has acted in a consulting capacity in its management since its inception.

Net earnings of the company available for interest, and Federal taxes, during

the three years and six months ended June 30, 1927, were at the average

rate of \$376,427 per annum, or in excess of ten times annual interest re-

The balance sheet of the company as of June 30, 1927, as certified by Arthur Andersen & Co., after giving effect to the issuance of these \$600,000 Notes, shows net tangible assets of \$2,712,812, or more than \$4,500 for each \$1,000 Note now to be outstanding. Plant investment of the company, carried at \$1,957,882 after depreciation, is at the rate of less

than \$1.31 per barrel of annual capacity which offers an unusually favorable comparison with other modern plants. The Notes are the direct obligation of the Company, and its only funded debt.

The trust indenture contains conservative provisions for maintenance of

FINANCING the Growth of ELECTRIC SERVICE

TN THE TASK of providing reliable electric ser- company, they gain the tremendous advantage of vice, ample in quantity and economical in cost, to small and medium-sized communities, one problem stands out most prominently. That is the problem of providing the necessary facilities to meet all the demands for service made by the public, which necessitates a flow of invested capital into the companies providing this service.

The cost of money is an important factor in furnishing electric service. Five dollars must be permanently invested, on the average, for each dollar of yearly gross income. If, through better financing and credit standing, one per cent can be saved in the cost of capital, there will result an annual saving of five cents out of each dollar of gross income. Furthermore, new capital must be readily secured. Electric service facilities must be expanded constantly as communities grow and as electricity is required for an ever-increasing number of uses.

Small companies operating in limited areas or single communities, without wider affiliations, are restricted by the difficulty of securing new capital on advantageous terms. Their financing is expensive and largely limited to local capital. The expansion of their service to the public is limited to their ability to raise capital.

When such companies are united under the control and direction of a public utility investment

ready and economical financing. The equity investment—the common stock investment, which assumes the maximum risk - is supplied by the investment company's raising the capital for that purpose by issuing its own securities. The Middle West Utilities Company, an outstanding example of the investment company, is enabled by nationally recognized financial standing and the diversity of its holdings to secure this capital on favorable terms. Thus the subsidiary companies' securities which have preference over the common stock are strengthened. Protection of investment creates confidence of investors. and as a result new capital is readily and econom-

It is this solution of their problems of financing that has enabled electric service companies under investment company control to build the efficient generating stations and extensive interconnected transmission systems with which they have supplanted inadequate local plants, to achieve greater reliability of service and lower costs of operation, to encourage community growth by undelayed expansion, and to extend the benefits of electric service to more users and more uses. To these advantages are added the efficiencies and economies of group managementall directed toward constantly increasing service at constantly diminishing cost.

Tribune Want Ad Section uperior 0100—Adtaker!

Tribune Want Ads to sell 101 used cars in 4 days.

HE Studebaker Sales Company of Chicago tested the selling power of Tribune, Want Ads recently.

Rainy weather for several days in succession had caused a let-up in sales. Studebaker was anxious to catch up.

A special, exclusively Tribune three-day advertising campaign was placed in The Tribune Want Ad Section on May 20th, 21st, and 22nd.

And here's what Mr. H. R. Levy, President of the Studebaker Sales Company of Chicago, says of the results obtained:

We expected good business from this campaign, but the actual results surprised us. Between Friday and Tuesday, exactly four days, we sold a total of 101 used cars and actually had 510 prospects for used automobiles. 'A careful check-up revealed that more than three-fourths of this business was directly traceable to The Tribune. Through these Tribune Want Ads we received 21 letters from people requesting information regarding specific makes and there were 89 telephone calls. The total space cost was \$846.70 for three full column smashes for the Michigan Boulevard store and 31 separate Want Ads for the branches.

"This makes the cost per inquiry \$1.66 and the cost per sale \$8.30—a record for Studebaker and a tribute to The Tribune. We are now convinced more than ever before of the effectiveness of The Tribune classified section."

Tribute of this sort for The Chicago Tribune Want Ad Section is especially noteworthy coming from Studebaker, for they have made a deep study of the used car situation in Chicago and are the largest advertisers of used cars in the city! They place two-thirds of their entire used car appropriation in The Chicago Tribune Want Ad Section!

For eager, able-to-buy used car prospects try a Tribune Want Ad FIRST!

And Together They Make Comedy That's Funny.

By Mae Tinée.

Good Morning!

[Just as soon as I get home—all rested—the Roosevelt starts opening shows in the middle of the week!]

One show—to be exact, And, to be fair, how could the management help it if, all sudden and unexpected like, they got a chance to display the Dempsey-Sharkey fight pictures? Could they pass up a chance like that? They could but they WOULD not and who shall blame them? At the Roosevelt could but they WOULD not and who shall blame them? At the Roosevelt then, there opened yesterday the famous fight pictures—which I shall leave you to view for yourselves, leaving all comment to said you and the sports writers who know more about fights tan I do. Sometimes. I said Tunney would beat Dempsey. ONLY I didn't bet.

Message to World LAUSANNE, Switzerland, Aug. 11.

—(P)—In an atmosphere of hushed expectancy, the world conference on faith and order today received from its sectional commissions the reports, intended as statements to the Christian world of its attitude on three important subjects. These are: "The Nature of the Church," "The Church's Message to the World," and "The Church's Message to the World," was there time for discussion. The committee had boiled down the results of Yes.

Intenter—men making others a day or two afterward, and thereby canceling the first. It seems now that there's something the matter with "Tommy," which long, long ago was bulletined for the 28th instant in the Cort; and a consequence is that Mr. Herrmann, instead of sending away to do, will keep it on a week-to-week arrangement, pending a diagnosis and report on what's the matter with "Tommy." If nothing really be the matter with "Tommy." The Wild Westcotts" can easily be disposed of before (or after) the 28th. . . . Yes.

its three days' discussion into a document of 600 words.

"The message of the church to the world," reads the document, "is and must always remain the gospel of Jesus Christ. The gospel is the joyous message of eternal redemption, which is the gift of God to sinful man in Jesus Christ. It is more than a philosophical theory, more than a theological doctrine, more than a proper gram for social and secular betterment.

And it is decided that "Gay Paree" will be moved back to the Garrick the 22d, when the Four Cohans will be needed by "Yours Truly," Miss Tucker and her associates will remain in Clark Street the night of the 21st, a Sunday. . . The plan to bring "An American Tragedy" into the Garrick September 4 stands: at least, it was standing at 12:15 a. m. today.

Furthermore, it is regarded as likely that Miss Larrimore will reopen the Harris with "Chicago" September 11:

"The gospel is a prophetic call to sinful man to turn to God. It offers the highest goal for the aspirations of youth, the rest that brings divine comfort to the toller, the growing joy to the martyr. The gospel is a sure source of power for social regeneration. It proclaims the only way by which humanity can escape from those class and race hatreds which now devastate society into the enjoyment of national well being and international the afternoon of September 5, is the present time for the first Chicago per-

My little niece had had to wear out several of her sister's outgrown dresses, until she seemed to have the idea that what had once been her sister's just naturally became hers. One day, pointing to a picture of her sister as a baby, she remarked, "that used to be Helen. Now it's me."

Perhaps there is more reason why people should not like oil dressings for eggs than why they should not like it on salad greens, but any oil dressing the least bit off in flavor cannot be enjoyed by those who like fine oils and really despise those which have deteriorated even a little.

At any rate, it is the almost too

piquant, too vinegary, dressing that almost every one has liked best for egg salads, for making stuffed or devilled eggs, etc. And here is one of the old recipes of that type, clean and sharp, but much in need of modifying in one but much in need of modifying in one way or another. One way to modify it is to use but little of it for a good deal of egg. Another way is to dilute the vinegar a half, even when the dressing is to be diluted with cream:

Mix together one teaspoon of mustard, four teaspoons of sugfr, one teaspoon or more of flour one dear wake.

The Tribune will pay \$5 for each childish saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unavailable contributions. Write on one side of the paper. Address bright sayings to Annty Bee, The Tribune. Chicago.

Jack is only 4 but, as his father is an automobile salesman, he is well up on automobile terms. Recently he because the proud owner of a brown and called the paper. Address this dry mixture one-half cup of milk and one tablespoon of salt, and a little cayenne pepper. Add to this dry mixture one-half cup of milk and one tablespoon of more of flour—one does make it thick and more may easily make it thick and more may easily make it thick and more pay easily make it thick and more tablespoon of sugar. restore to cream. If it has not curdled much this can be done.

Such dressings can never be recom-mended for health, with such a pro-portion of vinegar, but sparingly used, they have a place.

YOU AND YOUR CHILDREN

Nature and the Child. The road was shady and quiet. The baby was just old enough to walk well. and 13 years, and 35, 38, 40 and 42 Suddenly he stood still. There in the road ahead sat a baby rabbit that had 2% yards of 40 inch material. just hopped out from the hedge, and that sat like a little statue in the road, nursing the fond delusion that he was unseen. I looked at the baby, His eyes were wide and his whole body tense with interest.

A few days later he went to visit lovely little kitchen garden. "Look," said its quaint old mistress, "see what the rabbits have done to my string beans." And the baby looked and looked as she showed him the strings hanging from the vines, the beans all nibbled off by the rabbits.

Still another day—a very hot one—the baby was running ahead when again he stopped so suddenly that he almost fell. Along the dusty edge of the grass plodded a box turtle. Fascin-ated, the baby followed him until at last I picked up the grotesque old fel-low and let the baby see him close his door against the world—and touch

And so it went that summer. The earth provided such wonders for him And so it has been ever since. Have you ever realized how much

the child, from almost the beginning of his life, is akin to nature? It is a precious kinship he is entitled to. If your child hasn't had an opportunity business to see that he does. There is no better time than sum-mer to give the children a chance to start the roots growing for a deep nature in all her manifestations, and all they need is the chance to be with

An Attractive Frock for the College Woman

Corinne Low

NEW YORK.—(Special Correspondence.)—A triend of mine described his young daughter off at college as non campus mentis. This cutting remark was called forth by the clothes which she was wont to assume while strolling over the campus of her alma mater. The tomboyish air of the sports clothes that form the backbone of a college wardrobe did not please this gentleman of the old fashioned school and he was always trying to get her into what he called civilized garb.

day's little frock of light green crepella is one of these.

It is a delightful model, which individualizes its jumper by new and effective touches. The ladderlike finish of the neckline is chief of such distinguishing touches. Next in importance come the saw tooth appliques on the sleeves and the front of the jumper. These occur in velvet darker in tone than the crepella. And if you wish to make an ensemble, why not a straight three-quarter coat of velvet or velveteen to match the trimmings?

It will pay you to shop for your second mortrage loan, for you all find a wide range of rates charged for this type of financing scratce, in a second more and the second mortgate rates are higher than first mortgate rates and they always will be. At the same time there should be a rate which is fair to the borrower and which yields a gasonable return to the lender without any undus advantage taken in the situation. The Chicago Morris Plan Bank, as Arent, has undertaken to demonstrate that second mortgage loans may be made at lower rates than have loaned over a million foliars to home owners in Cook, Lake and DuPage counties. We charge 6% accruing interest and a commission of 4% for one year, 7% for two years, and 10% for three years. It will pay you to shop around for your second mortgage loan and in that shopping we would be very glad to have you come in and examine the proposition which is offered by The Chicago Morris Plan Bank, agent for a substantial second mortgage loan fund.
